

USAMA WASEEM

.Net Developer

As a skilled .NET Developer, I bring a wealth of expertise in developing robust and scalable applications using the Microsoft .NET Framework. I have a deep understanding of C#, ASP.NET, and other related technologies. My strong problem-solving abilities enable me to identify and resolve complex technical issues, ensuring optimal performance and user satisfaction. Additionally, I am well-versed in database management, utilizing SQL Server and Entity Framework to create and maintain data-driven applications. With a keen eye for detail and a passion for clean coding practices, I strive to deliver high-quality software solutions that meet both client expectations and industry standards.

Work History

2023-01 - **.NET Intern**

Current *Imran Enterprises*

- Learning and Understanding the .NET Framework: As a fresher, one of the key aspects of the job experience is getting familiar with the .NET Framework. This includes understanding the various components, libraries, and tools to develop web and software applications.
- Coding and Development: Freshers will have the opportunity to work on real-world coding projects, gaining hands-on experience in developing applications using C# and .NET. This includes writing clean and efficient code, troubleshooting issues, and implementing best practices.
- Collaboration and Teamwork: Working as a .NET developer often involves collaborating with other members of the development team, including designers, testers, and project managers. Freshers will learn how to work effectively in a team environment, communicate ideas, and contribute to the overall success of the project.
